Introduce

OneATS™ is the first and only product of Vietnam to be successfully researched, developed and applied in the field of control, automation and industrial data analysis, especially in the energy sectors....Solutions on this platform include **@Station®**, **@SCADA+®**, **@OCC™**, **vv...** has been widely applied on key infrastructure systems such as substations and national power system moderation centers, in Vietnam and Japan.

OneATS™ is highly flexible, suitable for many different enterprise sizes, operating on multiple platforms, easy to extract data (API) to integrate with other systems. The platform can help domestic companies reduce operating costs, enhance security, autonomy in control technology, limit dependence on surveillance technology, control electrical systems on multinational companies. The goal of **OneATS™** in the future is to apply AI, BigData to become a pioneer, promote the development of Smart Grid smart power system in Vietnam and go to the international market.

On December 23, 2020, the **OneATS™** platform solution of Technical Application Systems Joint Stock Company (ATS JSC) was honored to be awarded the first prize in the category of "Excellent Digital Solution" in 2020 at the Make in Vietnam Awards 2020 organized by the Ministry of Information and Communications in collaboration with the Vietnam Chamber of Commerce and Industry (VCCI).

Symbol	Description
CIM	Common Information Model
DMS	Distributed Management System
DCOM	Distributed Component Object Model
FEP	Front End Processing
HMI	Human Machine Interface
I/O	Input/Output
IED	Intelligent Electronic Device
LAN	Local Area Network
OPC UA	OPC Unified Architecture
RTU	Remote Terminal Unit
SCADA	Supervisory Control and Data Acquisition
SSL	Secure Socker Layer
TCP	Transmission Control Protocol
TLS	Transport Layer Security
XML	Extensible Markup Language
